*1 On occasion "IPv6 Setting" of 'Network Setting' is not displayed and supported correctly but actually these models are supported IPv6 set successfully. So please use the IPv6 what you set as usual. In "My device", "IPv6 Setting" of 'Network Setting' is sometimes displayed, but it doesn't work.

*2 SSL communication is not supported from SNC toolbox. Please prescribe SSL in camera side.

*3 Firmware upgrade timeout can be set after firmware version 1.12.0
